**To: Marc Hoff, Supervisory Patent Examiner, Technology Center 2800**

**Re: Patent Application # 10/714,142**

Dear Mr. Hoff:

I am in receipt of "Advisory Action..." from Examiner, Anthony Gutierrez, mailed March 15, 2006. I request that you review the process that the application has gone through with respect to the request in Amendment A, in which constructive assistance and suggestions of the Examiner pursuant to M.P.E.P #2173.02 and #707.07 was made.

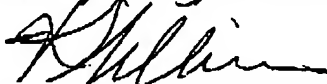

It is my understanding from M.P.E.P. #707.07(j) that with "Inventor Filed Applications" the examiner should apply the rule "...in all cases where it is apparent that the applicant is unfamiliar with the proper preparation and prosecution of patent applications".

This was never undertaken by the Examiner in Application #10/714,142. Amendment A complied with all of the initial Office Action objections of the Examiner. However, the next office action was made FINAL without acknowledging of fulfilling the request for constructive assistance.

I request that this constructive assistance be given.

It is my present understanding that I have three options now available to me: (1) Petition to the Commissioner, (2) File an Appeal, (3) Abandon the Application. Please advise me if there are any others.

Thank you for your attention,

  
Robert Edward Williams
